B/W MULTIFUNCTIONALS
FOR A3 FORMAT

FOCUS ON
BRILLIANT
PERFORMANCE.

 **KYOCERA**
Document Solutions

A MASTERCLASS IN MONOCHROME PRINTING.

Impressive document management comes in a variety of forms and this time it's KYOCERA's new range of TASKalfa b/w devices. As well as outstanding quality black and white printouts, you'll be equally in awe of almost non-existent downtime, remarkable reliability thanks to KYOCERA's renowned long-life component technology, and exceptionally quick printing speeds.

EXCEPTIONAL SPEED, OUTSTANDING QUALITY

KYOCERA offers a range of devices to enhance your workflows and aid your office productivity. All devices are extremely easy to use, and with b/w printing speeds of up to 60 ppm, you won't be left waiting long to see the results of your hard work. And once in your hand, you'll be equally impressed with the outstanding image quality, thanks to KYOCERA's newly developed toner technology.

TASKalfa multifunctionals have been designed to keep your productivity to the max, even with very high print volumes. You can individually select paper cassettes with capacities of up to 7,150 sheets, and even at full engine speed, high-resolution

print output will still be achieved. Scanning won't slow you down either: 180 ipm one-path duplex scanning will keep workflows flowing.

Whether printing, copying, scanning or faxing, TASKalfa devices impress with their usability and flexibility. They handle oversize prints and paper of up to 300 g/m² with ease. Finally unique energy-efficient technology, like reduced warm-up time, keeps your environmental footprint to a minimum. All in all, the TASKalfa series offers you productive monochrome MFPs that are quick and reliable, and deliver the highest-quality document output.

SEE THE DIFFERENCE – EVEN IN BLACK & WHITE.

The highest print quality isn't just reserved for colour devices. These multifunctional monochrome devices contain a built-in image-processing engine to generate the sharpest of contrasts.

With a true resolution of 1,200 x 1,200 dpi, the outstanding sharpness and gradation of your documents will amaze you and, although they are in black and white, you'll still be able to see even the slightest of differences in image quality, which is perfect for small text and line work.

PRODUCT SUMMARY

- > UP TO 60 A4 PAGES PER MINUTE (TASKalfa 6002i).
- > HIGHLY PRODUCTIVE COLOUR SCANNING OF UP TO 180 IPM.
- > STANDARD PRINT RESOLUTION OF 1,200 X 1,200 DPI, 2 BIT DEPTH (EQUIVALENT OF 4,800 X 1,200 DPI).
- > FLEXIBLE PAPER HANDLING FROM A6 UP TO SRA3 AND BEYOND, INCLUDING PRODUCTIVE FINISHING OPTIONS AND VARIOUS PAPER FEEDERS FOR UP TO 7,150 SHEETS.
- > TIME TO FIRST COPY 3.4 SECONDS (TASKalfa 6002i).
- > 4 GB RAM, 8 GB SSD + 320 GB HDD MEMORY AND STORAGE.
- > SELECTABLE ONE-PATH DUPLEX SCANNING AND REVERSING DOCUMENT PROCESSOR.
- > COMPREHENSIVE SUPPORT FOR ALL STATE-OF-THE-ART MOBILE COMMUNICATIONS.
- > HIGH SECURITY*: DATA SECURITY KIT, SUPPORT FOR INTEGRATED ID-CARD AUTHENTICATION AND MULTIPLE-CARD TECHNOLOGIES.
- > EXCEPTIONAL EFFICIENCY, REMARKABLE RELIABILITY AND MINIMAL WASTE THANKS TO KYOCERA'S LONG-LIFE COMPONENTS.

* OPTIONAL

PRODUCT HIGHLIGHT

A large, user-friendly, colour touch panel with intuitive controls offers easy and quick access to all print, copy, scan and fax functions.

- > CUSTOMISABLE HOME MENU SCREEN.
- > USER-FRIENDLY DESIGN.
- > TILTABLE SCREEN.

EASILY TURN HARD COPIES INTO DIGITAL DOCUMENTS.

SPEEDY SCANNING FLEXIBILITY

Today's digital world simplifies the sharing of documents but first you need to transform your existing paper into digital formats. Don't worry, TASKalfa's make this far easier than it sounds.

Our devices offer an extremely quick A4 scanning speed of up to 180 ipm in colour and b/w, while up to 600 dpi resolution guarantees the highest quality. And if you're looking for duplex support, the optional document processor quickly scans double-sided originals in a single step.

There are a variety of scanning options too, such as colour scanning to a server, scanning directly to an e-mail or scanning to a USB. All common formats like PDF, JPEG, TIFF or XPS and Open XPS are supported to make your daily office life even less stressful. With the optional OCR function, TASKalfa can turn your scanned documents into text too, enabling you to easily search, edit and share the scanned document.

KEEPING YOUR DATA SECURE AND YOUR WORK FLOWING.

RELAX KNOWING YOUR DOCUMENTS ARE IN SAFE HANDS

Data theft is something KYOCERA takes very seriously. That's why our TASKalfa devices come with the new standard encryption for SSD and HDD, to play it safe.

Your confidential data won't fall into the hands of others thanks to the optional card authentication function, which requires

users to identify themselves before being able to use the device and access data and documents.

In addition, the optional Data Security Kit ensures that any data stored on devices during document processing is immediately deleted and overwritten once the process is completed.

A DEVICE THAT WORKS IN LINE WITH YOUR NEEDS

How useful would it be to have a device that perfectly integrates with your existing workflows? Thanks to the open software development platform HyPAS™, TASKalfa devices do just that.

Whether Document Management Systems or Enterprise Resource Planning (ERP) for example, HyPAS™ allows you to customise devices to work with your individual workflows. Plus it's easy to install from your device's control panel and uncomplicated to use once set up.

ECONOMY

- > Amorphous silicon (aSI) drums with a lifetime of 600,000 prints are still unique in the class of mid-speed A3 MFPs.
- > High reliability means less downtime and increased savings.

ENVIRONMENT

- > Uses as little energy as possible.
- > Energy is only used when needed.
- > Renowned long-life components save resources.

USABILITY

- > User-friendly, customisable home screen with simple and intuitive menu.
- > Enhanced functionality and usability thanks to improved driver.
- > Extended mobile device support: Mopria, Airprint, NFC, Wi-Fi Direct.

FLEXIBLE PAPER HANDLING LEAVES NOTHING TO BE DESIRED.

OVER 7,000 SHEETS AND A VARIETY OF FORMATS AND FINISHINGS

Whatever your present and future needs, TASKalfa devices offer paper-handling options that'll take care of most requirements.

Finally, the right modular finisher makes seriously light work of tri-folding and booklet printing.

If you need to carry out hours of continuous printing, our devices can offer you an additional paper capacity of up to 7,150 sheets in six different media types.

DOCUMENT PROCESSOR DP-7100
One-way document processor that automatically reverses double-sided documents.

7 BINS MAILBOX SORTER MT-730
Ideal for large departments, separates different users' output into 7 trays.

4000-SHEET FINISHER DF-7110
Particularly suited for large outputs. With standard stapling and optional punching function.

1000-SHEET FINISHER DF-7120
Supports various formats from B5E to A3. With standard stapling and optional punching function.

BF-730
Booklet and tri-folding unit.

- CARD AUTHENTICATION**
The card authentication function not only optimally protects sensitive data, but also allows a personalised use of the device.
- ONE-PATH DUPLEX DOCUMENT PROCESSOR DP-7110**
with a capacity of 270 sheets, scans double-sided originals in one path.
- PF-7100 PAPER FEEDER**
2x 500 sheets, ideal for paper sizes between A6 and SRA3 (320 x 450 mm).
- SPACE-SAVING INNER FINISHER DF-7100**
500-sheet capacity, stapling up to 50 sheets A4 and A3 at 3 positions.

2X 1,500-SHEET PAPER FEEDER PF-7110
Supports A4, B5 and letter formats.

2X 500-SHEET PAPER FEEDER PF-7100
Ideal for paper sizes between A6 and SRA3 (320 x 450 mm).

3,000-SHEET PAPER FEEDER PF-7120
Ideal for large print runs in A4.
